Confidently infect cells with MISSION shRNA Viral Particles

High quality lentiviral shRNA

- Ready-to-use...begin experiments immediately!
- Optimal design for stable or transient transfections
- Confirmed titer concentration via p24 assay
- Renewed resource for future experimentation with corresponding bacterial stock

Custom options available

- Custom titer, volume, packaging, QC and more!

State-of-the-art manufacturing

- Expertise in lentiviral production
- Superior technical support

**Offer does not apply to split volume viral libraries or LentiExpress™ products.*

Discover the advantages of MISSION shRNA viral particles and place your order today!

Standard shRNA Orders

Email order to RNAi@sial.com and include the following:

- Customer Number or Institution
- Shipping Address
- Billing Address
- Purchase Order number and/or Credit Card number (expiration date, name on the card)
- Product number

Custom shRNA Orders
